Systems Engineer and Full-Stack Developer, specialized in Front-End Development, focused on creating innovative web experiences. Committed to continuous improvement, ready to contribute enthusiastically to dynamic teams and cutting-edge projects.

PROFESSIONAL EXPERIENCE

FRONT-END DEVELOPER

Talentum Corporation - Valle del Cauca, Colombia
Ago 2023 - Nov 2023

- Implemented interactive and highly efficient web interfaces using React.js and Next.js, resulting in a significant improvement in user experience.
 - Introduced reusable components that expedited the development process, enhancing team efficiency and ensuring project flexibility.
 - Enhanced code quality by incorporating TypeScript, generating more robust and maintainable code.
- Proactively identified and corrected errors, minimizing development times and improving project stability.

FULL STACK REACTJS / JAVA INSTRUCTOR

BIT - Bogotá Institute of Technology - Bogota D.C., Colombia
May 2023 - Jun 2023

- Delivered high-level training in Full Stack web development using ReactJS and Java, equipping students to create modern and scalable web applications.
- Guided students through the entire development cycle, from design to deployment, fostering a practical, project-based approach that enabled them to acquire hands-on skills relevant to the industry.
- Maintained course content consistently updated, incorporating the latest trends and best practices in ReactJS and Java. This ongoing update ensured training that was relevant and aligned with current demands in the job market.

ELECTRONIC SECURITY MANAGER

Geylca, Integrated Security Systems - Monagas, Venezuela
Oct 2016 - Feb 2020

- Led the management of security networks, strategically overseeing the implementation of comprehensive solutions to ensure effective protection of infrastructure.
- Developed and implemented security policies, optimizing operational efficiency and proactively mitigating risks.
- Collaborated closely with multidisciplinary teams to ensure the integrity and confidentiality of sensitive information.

EDUCATION

SYSTEMS ENGINEERING

Polytechnic Institute "Santiago Mariño" - Monagas, Venezuela
Ene 2012 - May 2020
